VIA ELECTRONIC FILING

Dr. Burl Haar
Executive Secretary
Minnesota Public Utilities Commission
121 7th Place East, Suite 350
Saint Paul, MN 55101

Dear Dr. Haar:

We are writing to inform you that Sparks Energy, LLC, and Medin Renewable Energy, LLC, are in the process of re-evaluating aspects of the Greenvale Wind Project. Although there are many in the area that support the generation of clean, renewable energy, the project has also faced opposition. In an effort to work with the community and adequately respond to feedback, we request that the Public Utilities Commission delay any further action on this project. Our group is working to resolve the following issues:

- Turbine; selection and micro-siting
- Project Area; re-evaluating to respond to community concerns regarding proposed turbine placements and ensuring that setbacks can be met

When these issues have been addressed, we will file a supplement to our application and move forward at that time.

If you have any questions or require additional information, please contact me at 612-232-3207 or

Sparks Energy, LLC
2751 Hennepin Ave S. #243
Minneapolis, MN 55408

Sincerely,

Anna Schmalzbauer
Project Principal
